Initiation of an Additional Return to Work Canvass

Lehigh Valley Operations (LVO) had a great production re-start this week thanks to the help of our dedicated employees. During this time, we've been able to evaluate our ability to produce trucks within our new way of working, and have identified the need for additional manpower on the Vehicle 1 line and in Materials. The additional resources will be added starting on Tuesday, May 26, 2020.

Initially, we will offer a canvass for volunteers to fill the additional manpower needs. If we are unable to fill these needs through the canvass, we will proceed with a recall of junior employees by area.

Please access the Voluntary Return to Work form through the link below, and indicate your preference on returning to work. This link will be active until the close of business on **Monday, May 18, 2020**. Phone calls will begin on **Tuesday, May 19, 2020**.

This return to work canvass / recall applies to active employees currently on Temporary Layoff due to COVID -19. Employees currently out under a Voluntary or General Layoff will remain out until formally recalled by the company.
